

Day 5 Passion Experiment: Your passionate desires. Your last chance to jump in on a [live Q&A today at 12 pm CST!](#)

## Gorgeous passion curandera!

It has been an AMAZING 4 days! I am SO excited and also a little sad that this is our last day together... How are you feeling?

I love my mixed feelings... because that is how we as women roll, loves. We have a voluptuous emotional range that knows no bounds – and a diffuse awareness that can hold multiple perceptions and perspectives at once – even when they seem contradictory. These are some of our superpowers as women.

We spent the first 3 days reconnecting with the body, and then yesterday, we reflected. What came up for you? **What desires did you uncover?**

Today's experiment is all about **DESIRE**, expressing your desire – while using the *tools we've learned*.

**So first: put it all together... Allow your body to open, as we learned on Day 1 – letting the lips part, the shoulders relax down your back and roll open, and your belly to go soft. Let your hips swirl, as we did on Day 2, and let your hands run lovingly over your body, as we did on Day 3. It is from this place that we speak our desires.**

Click the button below to download today's worksheet, or simply answer these questions in your journal – **whichever feels best to you... and** then share what you noticed, what you felt, what you experienced doing this experiment in the [The Passion Cure Facebook group](#)!
